

A LIST OF THE SAIL BOAT AND SAIL BOAT-RELATED PLANS  
INTRODUCED BETWEEN MAY 1946 AND DECEMBER 1980  
IN THE RANGE OF PLANS PUBLISHED BY  
THE AEROMODELLER AND MODEL MAKER/MODEL BOATS PLANS SERVICE

NOTES

- 1) This list is intended to be used in conjunction with the X-List.
- 2) It is hoped that the list is complete. If there are any omissions and/or errors, please notify Nigel Hancock.
- 3) MM followed by a number is the plan identification code.
- 4) The date, month and year, is the date of the magazine in which there is an article introducing the plan, including a small scale reproduction of the plan.
- 5) "The magazine" means,  
  
    May 1946 to September/October 1950, "The Model Mechanic."  
    December 1950 to August 1965, "Model Maker".  
    September 1965 to date, "Model Boats".
- 6) "H/C" means hard chine design, easier to build than a round bilge design. If any plan that should be designated H/C is not, please notify Nigel Hancock.
- 7) A few MM numbers are out of sequence with the magazine dates, but the magazine dates are correct. Sometimes this has happened because the plan was originally a free plan in the magazine, and only later was it included in the available range and given an MM number. E.g. MM/1024 DABCHICK.
